

5900 Series Actuated Ball Valves

Leaders In Valve Technology

RED-WHITE VALVE

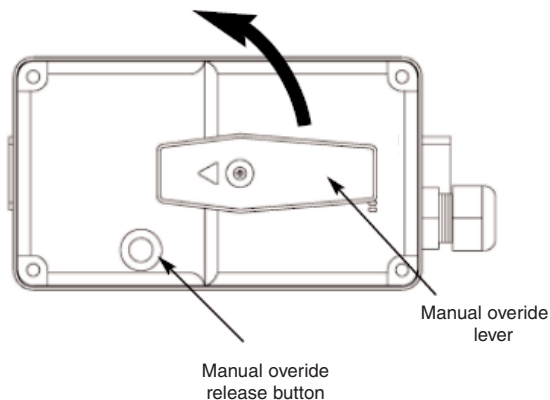

The 5900 Series of Actuated ball valves are available in 110VAC and 220VAC configurations. All actuators feature a manual bypass lever. This feature allows manual operation of the valve during power failure or other emergency situations.

These rugged full port ball valves feature forged brass construction with PTFE seats and an integral mounting flange.

Rated at 600 # WOG, these ball valves are suitable for a variety of powered on/off applications.
